Total.....240.....93

The whole number of members is 331. From Rhode Island and one not elected has an apparent Democratic majority of 149. A number of Alliance members indicated in the returns counted for convenience with the Democrats. In most instances the Alliance men are Democrats, but several were elected over both Democrats and Republicans.

Senator Sherman Talks.

A New York dispatch of the 7th inst., says that Senator John Sherman arrived in that city on that date from the battlefield in Ohio not at all dispirited over the results of the election, but confident that the discomfiting which the Republicans had received would in no sense result in their disintegration.

"Major McKinley," he said, "was beaten because he sought to be elected in a district which was mainly made up of strongly Democratic counties under the new apportionment. As a matter of fact he carried his old county by a greatly increased majority, and had been able to run for Congress in his old district he would have been elected by an overwhelming majority. As it was, and in the face of all opposition, he was defeated by a very few votes. I don't think Major McKinley believed that he would be elected, but he still remains active and I should not be surprised to see him the next Governor of Ohio."

Senator Hearst, of California, wanted to buy one of the great New York daily newspapers for his son, who is owner and manager of the San Francisco Examiner. Accordingly an offer of \$5,000,000 was made James Gordon Bennett for the Herald and that gentleman only laughed at it. He said he wouldn't sell his paper for \$20,000,000. This gives some idea of the value of such property in the metropolis of the country.

Kansas has more miles of railroad than all the New England States put together. She has 1,150 more than New York, whose population and wealth surpass Kansas four to one. She has more than the great States of Pennsylvania, Iowa or Texas. Kansas to-day has 8,754 miles of railroads. Illinois alone surpasses her with 9,000 miles. Next comes Iowa with 8,364 miles. Following her is Pennsylvania with 8,214, then comes Texas with 8,210 miles.

McKinley has a right to feel proud of his campaign. He came within about 200 of beating the Democratic gerrymander which involved nearly 3,000 majority against him. Two years of his bill will give him his district again if he wants it.

The Illustrated American in attempting to prove that nature has lavished her choicest treasures on Ward McAllister and withheld them from Chauncey Depew, asserts that while Depew can eat and talk, McAllister can eat, write and dance.

Emperor William's offer to pay out of his private purse the expenses of Professor Koch's experiments with the consumption microbe will help his popularity. This young man has in several instances demonstrated the possession of either a liberal disposition or a shrewd eye to effect.

Another good law which was passed by Congress late in the session was one forbidding the use of the United States flag for advertising or any other but patriotic and emblematic purposes under a penalty of a fine of \$50 or imprisonment for thirty days.

The Journal is pleased that Don Cameron will be re-elected Senator from Pennsylvania. He was the only Eastern Republican Senator that voted for free coinage.

AT THE CAPITAL.

The Late Elections the Topic of Conversation.

Washington is the liveliest political town in the country just now, says a Capital dispatch. The interest which in the States culminated in the last days of election is transferred to the National Capital, and from the present moment until the next President has been six months in office there is likely to be no lack of gossip. The politicians are already turning their faces towards this city, and all of them have something interesting to say.

Senator Sherman of Ohio reached the city yesterday evening. "The women did it," was his laconic reason for the tidal wave. "They found prices higher when they went shopping, and the men had to vote against the tariff bill."

Senator Hawley of Connecticut also arrived yesterday from his trip home to vote, and was in a cheerful mood. He says that the Connecticut Legislature is surely Republican; that Senator Platt will be returned, and the Republican party will retrieve its losses in 1892.

Senator Chandler was heard from by telegraph to-day, and asserts that the New Hampshire Legislature is Republican.

Nor do the Democrats seem able to extract much consolation from the defeat of Senator Ingalls, for a private dispatch from Governor Humphrey of Kansas says that the successor of Ingalls would be a Republican. This would indicate that the Farmers' Alliance men, who are pledged to vote against Ingalls, are not willing to go to the extreme of voting for a Democrat.

Gossip about the House relates, first of all, to the Speaker-ship Representative Villis in the field, and this is a new complexion on the face of things, and the candidacy of other aspirants for the honor is somewhat impaired. Villis' election would seem to be the logical result of the existing condition of affairs, and he fought the fight when Mr. Morrison had left the contest unfinished, and his admirable management of the tariff legislation in the Fifty-first Congress will be remembered to his credit. As he was the recognized leader on the floor when Charles was Speaker, it is but natural for him to suppose that his party will honor him, now that an opportunity to do so has come.

Dr. R. H. Graham has just returned from Ohio. He says that the campaign in McKinley's district was the most exciting one he had ever witnessed in the State. All sorts of tricks were resorted to, and money flowed freely as water. The Democrats were out early, and got in some effective work before the Republicans learned of their operations, and it was then too late to do enough effective bidding, and the Democrats sent out a number of young men with wagon loads of tinware from farm houses to farm houses and asked each twice the value of the buckets, pans and kettles. "The housewives," said the Doctor, "lifted their hands in holy horror and wanted to know why a 25-cent bucket had doubled in price in such a short time. The McKinley bid did it," was the cry in every instance, and it is, of course, not necessary to say what the women thought of both Major McKinley and his bill."

THE FARMERS' ALLIANCE.

They Will Have Thirty-Eight Members in the Next Congress.

WASHINGTON, November 8.—President Polk of the National Farmers' Alliance is very jubilant over the result of the election. In an interview to-day he said: "Democrats and Republicans are claiming everything just now, but when they come to sift the chaff from the wheat they will find that the Farmers' Alliance had something to do with electing a fair proportion of the good men who will have seats in the next Congress. Up to the present time it is certain that Congress will contain thirty-eight straight-out Alliance men, and there are twelve or fifteen more who are pledged to us. These men are from the South and Northwest—the two sections in which most of our work was done."

"The Alliance in Nebraska, Minnesota and Iowa is not of our organization and is not amalgamated with us, but it made the same fight and will join us this Winter. Our Alliance will co-operate with any farmers' association, and in a little while have a grip on the situation in almost every corner of the land."

"We are here to stay. This great reform movement will not cease until it has impressed itself indelibly in the nation's history. Financial reform is a necessity and it must come. The press and the voices of our stump speakers were our only assistants. The Alliance has no campaign fund and no boodle. If we had had money we would not have used it. The principles on which the Alliance is founded are solid and correct; we must succeed."

"The fight was no small affair. The extremists of both parties attacked us bitterly and gave no inch of ground. In the South it was the Democrats who opposed us, and in the North our most vigorous antagonists were the Republicans."

A negro woman apparently died in Shreveport, La., but when the funeral procession arrived at the cemetery next day, her corpse rose up in the coffin and wanted to know what was going on. An ex-charge says the mourners were terror-stricken and dispersed in a hurry, leaving the woman to take care of herself. She is now as well as ever.

And now we may expect to see Mr. Mills resume his high and lofty tumbling tactics in Congress, and present another tariff bill drawn to suit the interests of the foreign and not the American producer.

A CLASSIC TOILET.

Make-Up of a Roman Lady in the Days of the Caesars.

According to testimony which is scarcely to be disputed, the sun could never have shown upon a less lovely object than a Roman lady in the days of the Caesars when she opened her eyes in the morning, for before she opened her eyes a great deal, says the Boston Herald, had to be done.

When she retired to rest her face had to be covered with a plaster composed of bread and ass' milk, which dried during the night hours, and, consequently, presented in the morning an appearance of cracked chalk.

The purpose of the ass' milk was not only to preserve the delicacy of the skin but to renovate the lungs, and so strong was that belief in the efficacy of the specific that some energetic ladies bathed themselves in it seventy times in the course of a single day, says a writer in the *Times-Mirror*. Ino says Poppo, the favorite wife of Nero, never set out on a journey without taking in her train whole herds of the asses, that she might bathe whenever she pleased to do so.

The plaster-of-paris bust having weakened in the morning in a cracked condition, it was the office of a host of female slaves to mature it to perfect beauty. To clear the field for further operations, the first of these gently washed away with lukewarm milk the already crumbling mask and left a smooth face to be colored by more recondite artists.

The slave whose vocation it was to paint the cheeks delicately laid on the red and white, having moistened the pigments with her own saliva. The apparent offensiveness of this operation was diminished by a certain number of scented lozenges, if the slave neglected to take which she suffered corporal punishment.

A precious article was the paint with which the Roman dominion was beautified; it was well worthy the case of ivory and rock crystal in which it was preserved. The principal ingredient in the red paint was a moss, known by the name of *fucus*, which is still to be found on the Mediterranean coast. The cheeks having been perfected, the eyelashes and eyebrows came in for their share of attention, and a third slave dyed them with a black mixture, which, though called *finigo*, was no common soot, but composed of very choice materials. These blackened eyebrows and eyelashes were absolutely indispensable if the domina aspired to the slightest degree to the character of a beauty.

The curatrice of the eyebrows was followed by the tooth-brusher, who not only performed the office which this title implies, but handed to her mistress some masticum from the Isle of Chios, a specific chewed every morning to preserve the teeth from decay. Even if the teeth were not already in the head of the lady, but had to be inserted by the dexterous slave, the masticum was still chewed to keep up appearance.

EGAN A GENTLEMAN.

The Rebuke Administered to a Boorish English Journalist.

A Washington dispatch says an interesting diplomatic story has reached there through El Commercio, of Valparaiso, Chile. The United States Minister to that city is Patrick Egan, the well-known Irish Land Leaguer, of Lincoln, Neb.

On the 18th of September last the President of the Republic gave a reception to the diplomatic corps and other distinguished gentlemen. Among the guests were Egan and a Mr. Thompson, a representative of the London Times.

During the course of the evening one of the attaches of the Chilean Foreign Office presented Mr. Egan to the English correspondent. The latter, however, declined to accept an introduction. Covered with confusion the gentleman who had made the introduction began an apology to the American Minister.

Egan, who seemed to view the matter with amiable indifference, politely responded. "You have nothing to apologize for. A gentleman would not have insulted me and blackguards cannot."

Made Rich by an Accident.

A remarkable instance of the fickleness of fortune, which occurred to Butte, Montana, some weeks ago has just come to light. Dr. Evans, a young miner had been to see his best girl Sunday night. Returning home late he fell into an abandoned prospecting hole and was compelled to remain until the following morning, when, in ascending by means of a rope, he scaled off a portion of the wall and discovered a rich vein of silver. He leased the mine and is now taking out ore that yields \$300 a ton in silver and a considerable quantity of copper. He has been offered \$50,000 to cancel his lease, but refuses to sell. He will become a millionaire, while the fellows who leased to him have already become hopeless lunatics.

Interred by the Side of His Grandfather.

SPRINGFIELD, Ill., Nov. 8.—Robert T. Lincoln, Minister to England, arrived this morning with the body of his son, who died abroad. He was met at the station by members of the Lincoln Monument Association, who escorted Lincoln and the remains of his son to Oak Ridge, where the body was deposited in the monument erected to the memory of the boy's illustrious grandfather. The interment was without ceremony.

The total liability of the Union Pacific road to the Government is \$51,717,509; that of the Central Pacific, \$53,326,765; that of the Sioux City & Pacific Railroad Company, \$3,611,361, and that of the Central Branch of the Union Pacific, \$3,385,103.

DEATH VALLEY.

An Expedition of Scientists Will Start Out Soon to Explore It.

An expedition into the celebrated Death Valley in Southern California will soon be made, and three months spent in exploring that region under the auspices of the Biological Survey connected with the Agricultural Department. Ten celebrated scientists will compose the expedition, and a thorough survey will be made of this hitherto unknown country. Chief Field Naturalist Vernon Bailey, who is now in Nevada, will go soon, and Professor Theo. Palmer, of the Biological Survey, will go in upon the south, and proceed north to join Bailey. Many difficulties will be encountered. The temperature is hot and dry, and water scarce.

KISSED ANOTHER MAN'S WIFE.

"You seconded," yelled young Jacob Green as he good neighbor Brown—"You kissed my wife upon the cheek—I ought to knock you down."

"That's where you're wrong," good Brown replied.

"In a sense mild and meek; I kissed her, but I did not demand."

"But I kissed her on the cheek—and I did so because she looked so handsome—the very picture of beauty and health. What is the secret of it?"

"Well," replied Green, "since you ask it, I will tell you; she uses Dr. Pierce's Favorite Prescription. I accept your apology. Good night."

"An unhealthy woman is rarely, if ever, beautiful. The peculiar diseases to which so many of the sex are subject, or profligate causes of pale, sallow faces, dull, listless eyes and emaciated forms. Women so afflicted can be permanently cured by using Dr. Pierce's Favorite Prescription; and with the restoration of health comes that beauty which, combined with good qualities of head and heart, makes women angels of loveliness."

"Favorite Prescription" is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. It is a positive specific for leucorrhoea, painful menstruation, unnatural suppressions, prolapse, or falling of the womb, weak back, nervousness, restlessness, bearing-down sensation, chronic congestion, inflammation and ulceration of the womb.

SUGAR BEETS.

What is the Matter With Nevada for the Same Product?

At Grand Island, Nebr., says the Call, the Oxnard Beet Sugar Company have produced in large quantities an article of granulated sugar of the best quality. The Grand Island enterprise is so successful from every point of view that preparations are being made on a larger scale for the cultivation of beets in others of the Northwestern States. Agricultural manufacturing firms are also preparing to turn out machinery expressly adapted to this sugar beet culture. If the farmers of the Northwest have a new and profitable industry thus opened to them, what shall be said of the possibilities of the same industry in California? The soil and climate of this State are especially adapted to the production of sugar beets, and our farmers are rich enough to form companies among themselves for the manufacture of sugar.

The Amold Concert Company.
Hon. R. B. Anderson, U. S. ex-Minister to Denmark; ex-President of Wisconsin State University; author of "The Life of Ole Bull," and an associate of Ole Bull for 10 years, writes the following letter to Mr. Victor Thrane, Manager of the Amold Concert Co.:

MADISON, Wis., Jan. 21, 1890.
I want to thank you for the very great pleasure I have enjoyed in hearing the performances of the members of the Amold Concert Co. Herr Amold's violin playing reminds me most forcibly of the good old days when I listened to my charming friend Ole Bull.

Herr Amold's tone is pure and his technique is simply wonderful. His rendering of the classic is superb, and I enjoyed immensely the Norse popular melodies played by him.

Once more thanking you for the pleasure I have had from the music, I am, with very greetings, Yours faithfully,

R. B. ANDERSON.

Herr Amold will appear at McKinnick's Opera House, Friday evening, November 14th, in company with Master Louis Eibel, the wonderful boy pianist. Reserved seats for sale at Hodgkinson's drug store.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? It is so said at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Honey Lake Walnuts.

Lassen Mail: While passing the orchard of the Hon. E. V. Spencer one day this week, that gentleman gathered some walnuts from a tree and gave us, which are very fine indeed. They are large and very fine flavored, in fact, as large as any we have ever seen, and it is evident that walnuts can be grown here as well as anywhere on the Pacific Coast. The trees were set out about twelve years ago and now bear very abundantly. It would seem as though our orchardists would find it profitable to set out these trees. After a few years they would bear heavy crops, and walnuts always command a good figure.

After the Lottery Violators.

United States Marshal James Moore, who has received instructions from Washington to bring all violators of the lottery law before the Grand Jury and prosecute them to the full extent, was in Carson yesterday interesting himself in the matter.

A Social Note from Genoa.

Genoa Courier: Yesterday Jim Cadiola, was pretty well steamed up and seemed to be looking for a fight. He ran up against Jerry Raycraft, in consequence of which his head is plastered and bandaged.

California clover hay is quoted in San Francisco at \$13 per ton. It cannot compare with the Nevada article, which, when its merits are known, should command \$15. At this rate the Reno farmer can afford to ship hay to San Francisco under the new rates. With freight \$4, baling \$2 50 and loading \$1 per ton he will then have left about the same as \$7 50 in the stack.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiarly powerful.

No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$200,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

INSURANCE.

THE

MANHATTAN

Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even 30 times as much as has been deposited; or on the

Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest.

Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 percent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he dies while making these payments—even after one only has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family; and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for; thus, if one-fourth of payments had been made, he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances, not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

Entire Property in Fee Simple

Is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus losing the whole amount paid in and leaving the family destitute, or dependent, it offers a

Specific Bond Secured by Millions

of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company will receive prompt reply if addressed to
